Registered Angus, Sim-Angus, and Simmental Cattle

Jeremy, Erin, and William VanBoening

Striving for genetic excellence, structural soundness, and longevity!

What an exciting time to be in the cattle business! Historic high prices and forecasts that project these prices to continue for some time make it a great time to invest in genetics that will maximize your operations potential. Over the last several years our operation has moved from a commercial cow calf herd to a registered herd of Angus, Simmental, and Sim-Angus cattle. We built our base of registered cows off females that exhibited the structural soundness, udder quality, and exceptional disposition needed for longevity. From that base we continue to make bulls that will sire offspring with added growth and females that will function for years to come. At this time we are offering bulls for sale private treaty and online through bigiron cattle. In the future we will also offer registered heifers for sale annually. In addition we will offer packages of embryos. We would be honored for you to view the bulls at the grower yard located across the road from our home or approximately 3 miles North of Orleans, NE. Additionally bulls can be viewed online at www.wjecattle.com or on our youtube channel WJE Cattle with updates coming on our facebook page.

- ♦ Bulls available online via bigiron livestock and private treaty sales.
- ♦ First 90 Day's breeding season guarantee.
- ♦ All bulls will pass fertility exam.
- ♦ Free delivery with 100 miles.
- ♦ Free wintering until April 1st. \$5.00 per day after April 1st.

WJE Confidence Plus 223M AAA# 21054204 BD:3/02/2024 BW:76 Adj. WW: 713

223M is possibly the last direct son of the great 0016-6040 cow from the Bartels Angus program. This bull is does not disappoint. Thick topped big ribeye bull with uncompromising hind quarters and a very smooth transition into his shoulders. A phenotype we love! Don't miss this opportunity to own a son from one of the great cows in the breed. 16 EPD traits top 30% or higher. Recommend for cows although his full brothers have been used in heifers with great success.

Five Full Bothers 43G Rainmaker Cow X GAR Ashland

WJE Ashland 215M AAA# 21054192 BD:3/04/2024 BW:70 Adj. WW: 668

215M is the 1st of 5 bull brothers from the flush of the 43G Rainmaker 4404 cow and GAR Ashland. This was a large flush and there are 3 older full brothers already out performing for area cattle herds with great satisfaction. Additionally there are 5 very nice full sisters for viewing if desired. 215M is the genetic rock star of the group. Top 15% in all value indexes besides \$M which is top 25%. Complete bull here! Recommended for cows.

166L is a 5/8 Simmental bull we used back in the registered cows this past year. We will sell him this year as we just have to many cows directly related at this time. He comes from a damn with a picture perfect structure from head to toe. He boasted 17 plus inch ribeye on his scan as a yearling with marbling you would not expect from his lineage. This is a bull you will want to keep every female and will produce steer claves with thickness and style.

WJE Eagle 167L ASA: 4482497 BD: 2-02-23 BW: 82 Adj WW: 742

167L is a 5/8 Simmental bull we also used back in the registered cows this past year and comes from the 772E cow which is just as correct in her type and kind. He is the baldy maker of the two brothers and wow will he make a beautiful set of female replacements while adding thickness and pounds to his steer calves. This is a bull you will want to keep every female as baldy females are in high demand.
